not be confused with existing vegetation. Areas predominantly yellow indicate there is relatively no much change of vegetation when compared to STA.									

These E-Modis NDVI time series maps show the changes in vegetation month-on-month from Jan 2005 to Jul 2024 (Short Term Average). The multiple orange/ red markings indicate deficits in vegetation when compared to STA while the greenish areas indicate vegetation improvements. Note: The yellow areas should not be confused with existing vegetation. Areas predominantly yellow indicate there is relatively no much change of vegetation when compared to STA.
