Market DataUpdate

February 2016 Data (Issued March 18, 2016)

Highlights

Inflation:

SoSh (Somali shilling)-using areas: Consumer Price Index (CPI) changed (1-3%) in February 2016 month-on-month. Compared to a year ago (February 2015), CPI increased by five percent in Northeast regions, while in South-Central regions CPI declined (6-11%).

SISh (Somaliland shilling)-using areas: The CPI remained relatively stable month-on-month in February 2016, but increased (5%) compared to a year ago (February 2015).

Exchange rate

SoSh-using areas: The exchange rates between SoSh and the United States Dollar (USD) indicated stability or marginal monthly changes (1-2%) in February 2016. In February the SoSh 2016 depreciated compared to a year ago across all areas.

SISh-using areas: The SISh depreciated against the USD in February 2016 both month-on-month (4%) as well as year-on-year (2%).

Local grain prices changed (increases/decreases) at mild rates (by less than 10 percent) in February 2016 in most regions of the country apart from Middle Juba, Hiran and Bay where local grain prices declined (11-27%) due to high cereal supply following the recent good harvest. Annual local grain prices were lower compared to a year ago in most regions of the country; with the exeption of Gedo region where yearly cereal prices (red sorghum) increased by 12 percent due to reduced overall food aid distribution as a result of deteriorating security situation.

Prices of imported food (rice, sugar, vegetable oil, wheat flour) mostly exhibited relative stability or mild (less than 10%) monthly changes (increases/decreases) in local currency terms in February 2016; the exception is Middle Shabelle region where prices increased moderately (16-19%) due to deteriorated security conditions, specifically in Adan-Yabal. The annual comparison indicates that the prices of most imported commodities in the country have generally changed at mild to moderate rates.

Livestock prices (for all species) either remained relatively stable or changed at mild rates (less than 10%) month-on-month in February 2016 in most regions of the country. Notably, livestock (camel and goat) prices in Northwest declined moderately (15-16%) due to increased supply of livestock into the market from pastoral areas (to pay off debts and cover increased costs for water during dry season). Milk prices (camel and cattle) changed at mild rates (less than 10%) month-on-month in most regions of the country in February 2016. Annual comparison recorded higher livestock prices compared to one year ago in most of the regions in February. However, livestock prices exhibited annual moderate declines in Bay (goat-13%), Middle Juba (cattle-19%) and Lower Shabelle (camel-12% & cattle-14%). Compared to a year ago, milk prices (camel and cattle) were higher in most parts of the country with the highest increase being recorded in Northwest (camel milk-67%).

Labor (unskilled) wages either remained relatively stable or changed by less than 10 percent month-onmonth in most regions of the country. Annual labor wages were higher compared to one year ago (February 2015) in most regions of the country.

This Market Data Update is a monthly report that presents analysis of market information and is produced regularly as part of the monthly monitoring process.

The weekly price data is collected from 48 main markets and 51 rural markets throughout Somalia since 1995.

Market analysis is an integral part of all of FSNAU's annual food security projections and seasonal technical reports (Technical Reports on FSNAU Post *Gu* and Post *Deyr* Analysis).

Detailed market data are available online on www.fsnau.org/ids.

Terms of Trade (ToT) between daily labor wage and local cereals either remained stable or changed by 1-2kg/daily labor wage month-on-month in February 2016 in most parts of the country; the exception is Bay region where the ToT increased by 7Kg/daily labour wage due to increase in labor wage and decline in red sorghum prices in the region. The ToT between local quality goat and cereals declined in central and northern parts of the country, while it increased in most of the southern regions; the highest increase was recorded in Bay (64kg/local quality goat) due to decline (27%) in cereal prices in the region. Annual comparison indicated increases in ToT between daily labor wage and local cereals as well as ToT between local quality goat and cereals in most regions of the country.

Towns Affected by Trade Disruption (Bulo Burto, Wajid, Hudur and Diinsor)

Labor (unskilled) wages declined in Bulo-Burto and Hudur (10-12%) while it increased in Wajid (19%) but remained stable in Dinsor in February 2016 month-on-month. Annual comparison indicated increase in labor wages in both Dinsor (13%) and Hudur (68%) due to improved farm labouropportunities in the area.

Terms of Trade (ToTs) between daily labor wage and local cereals changed (increase/decrease) mildly (1-2kg/daily labor) month-on-month in most towns in February 2016; the exception is Dinsor where the ToT increased by 6kg/daily labor wage as a result of escalated labor wages. ToT between local quality goat and local cereals rose in Hudur (4kg/goat), Bulo-Burto (5kg/goat) and Dinsor (89kg/goat) due to increase in goat prices and/or decline in cereal prices. Conversely, the ToT declined (9kg/goat) in Wajid in February 2016. ToTs are higher compared to a year ago in both Hudur and Dinsor due to decrease in cereal prices and increase in labor wages and goat prices.

Local grains (red and Sorghum) prices declined in all the four markets with the highest decline being recorded in Dinsor (27%) in February 2016 month-on-month due to increased cereal distribution as a result of relative improvement in security conditions. Annual price comparison indicated declines for red sorghum in Dinsor (23%) and increase in Hudur (12%).

Prices of imported food items (rice, sugar, vegetable oil, wheat flour) either remained stable or declined in Bulo-Burto and Hudur, while they mostly increased in Wajid and Dinsor month-on-month. Annual comparison indicated lower prices in Hudur and higher prices in Dinsor.

National Trends: CPI, Exchange Rates, Cereal Prices and Relative Purchasing Power
