

Legend Large decrease Small decrease No change Small increase Large increase

These E-Modis NDVI time series maps show the changes in vegetation month-on-month from 2001 to 2017 (Long term mean). The multiple orange/red markings indicates deficits in vegetation when compared to LTM while the greenish areas indicates vegetation improvements. Note: The yellow areas should not be confused with existing vegetation. Areas predominantly yellow indicates there is relatively no much change of vegetation when compared to LTM.
