

Legend  Large decrease  Small decrease  No change  Small increase  Large increase

These E-Modis NDVI time series maps show the changes in vegetation month-on-month from Jan 2002 to Jul 2020 (Long term mean). The multiple orange/red markings indicates deficits in vegetation when compared to LTM while the greenish areas indicates vegetation improvements. Note: The yellow areas should not be confused with existing vegetation. Areas predominantly yellow indicates there is relatively no much change of vegetation when compared to LTM.
