Legend	Large decrease	Small decrease	No change	Small increase	Large increase	FSNAU Manageo

These E-Modis NDVI time series maps show the changes in vegetation month-on-month from Jan 2003 to Feb 2021 (Long term mean). The multiple orange/ red markings indicates deficits in vegetation when compared to LTM while the greenish areas indicates vegetation improvements. Note: The yellow areas should not be confused with existing vegetation. Areas predominantly yellow indicates there is relatively no much change of vegetation when compared to LTM.
