

Legend

	Large decrease		Small decrease		No change		Small increase		Large increase
--	----------------	--	----------------	--	-----------	--	----------------	--	----------------

These E-Modis NDVI time series maps show the changes in vegetation month-on-month from Jan 2007 to Jul 2026 (Short Term Average). The multiple orange/red markings indicate deficits in vegetation when compared to STA while the greenish areas indicate vegetation improvements. Note: The yellow areas should not be confused with existing vegetation. Areas predominantly yellow indicate there is relatively no much change of vegetation when compared to STA.
