# Main Livelihood Groups

## Sources of Food and Income

### Livelihood Groups & Main Sources of Food and Income:

- **Riverine gravity G.I livelihood:**
  - Primary sources of **income** of poor: sale of crops, agricultural Labour, and self employment.
  - Primary **food** sources of poor: Own crop and purchase.
  - Primary **livelihood asset** of poor: Agriculture
- **Agro pastoral Livelihoods** (Lower Shabelle southern rain fed maize/cattle, coastal deeh, Cowpea belt)
  - Primary sources of **income** of poor: crop sale, agricultural labor, livestock and livestock product sales, self-employment (fodder sales, firewood, construction materials, etc); main sources of **food** of poor: Own production (maize) and purchase.
  - Shabelle red sorghum high potential agropastoral: Primary sources of **income** of poor: crop sale, agricultural labor, livestock and livestock product sales, self-employment (fodder sales, firewood, construction materials, etc); main sources of **food** : own production(Sorghum) and purchase.
- **Pastoral Livelihoods (Southern Inland Pastoral)**
  - Primary sources of **income** of poor: sale of livestock & livestock products
  - Primary sources of **food** of poor: purchase

Population surveyed	Type of survey	# clusters	# of household	# of children 6 - 59 m	Boys	Girls
Mogadishu IDPs	Comprehensive WHZ-SMART	37	425	676	345	331
Shabelle Agropastrol	Comprehensive WHZ-SMART	29	456	499	250	249
Shabelle Riverine	Comprehensive WHZ-SMART	29	459	589	305	284
Total		95	1340	1764	900	864

### Mogadishu IDPs, Summary of Findings

Outcome Indicator	Deyr'15 (n=825)	Gu' 2016 (n=689)	Deyr'16 (n=676)
Plausibility	10%	4%	1%
GAM (WHZ<-2 or oedema) - WHO/UNICEF	11.4 (8.8-14.6)	14.7( 11.6-18.4)	16.6 ( 13.7-19.9)
SAM (WHZ<-3 or oedema) – FSNAU	2.5 (1.5- 4.2)	3.5 (2.4-5.0)	4.0 ( 2.8- 5.7)
Oedema	0.4	0.0	0.0
Mean of WHZ ±SD	-0.72 ± 1.05	-0.87±1.08	-0.98±1.08
DEFF	1.00	1.55	1.14
MUAC (<12.5 cm or oedema) - FSNAU	7.6 (5.7-10.1)	6.2 ( 3.9- 9.8)	11.3 (7.9-16.0)
Severe MUAC (<11.5cm) - FSNAU	2.0 (1.4- 2.9)	1.4 ( 0.7- 3.0)	1.0 (0.5- 2.1)
	14.9 (11.3-19.5)	12.4 ( 8.4-17.8)	11.8 (8.5-16.0)
	15.6 (11.9-20.1)	17.2 (12.8-22.8)	16.7 (13.2-20.8)
Crude death Rate – SPHERE	0.40 (0.20-0.80)	0.33 (0.16-0.70)	0.61 (0.34-1.11)
Under 5 death Rate - SPHERE	1.5 (0.49-2.60)	0.99 (0.37-2.65)	0.74 (0.30-1.81)
NUTRITION SITUATION - WHO/UNICEF	Serious	Serious	Critical

### Risk/Underlying Factors

Morbidity based on 2wk recall	29.7	44.6	29.6
Vitamin A Measles Vac	44.1 39.5	39.3 27.8	38.8 30.1
HHS	N/A	N/A	14% Moderate/severe
FCS	95%	N/A	21% poor/Borderline
Mean CSI	54.0	66.3	37%
Food Security Phase - IPC	Crisis	Crisis	Crisis

# Key Driving Factors

Area	Aggravating factors	Mitigating factors
<b>Shabelle Agro-pastoral</b>	<ul style="list-style-type: none"> <li>• <b>High Morbidity :37.3%</b></li> <li>• Very Low Immunization Coverage.</li> <li>• Outbreak AWD</li> <li>• Low humanitarian interventions</li> <li>• Limited access to health service</li> <li>• Conflicts and security concerns</li> </ul>	<ul style="list-style-type: none"> <li>• Social support.</li> <li>• Nutritional intervention sites.</li> <li>• Average Labor wage available,</li> <li>• Milk availability was average</li> </ul>
<b>Shabelle Riverine</b>	<ul style="list-style-type: none"> <li>• <b>High Morbidity :22.1%</b></li> <li>• Low Immunization Coverage</li> <li>• Poor feeding practices</li> <li>• Outbreak AWD</li> <li>• Limited Humanitarian assistance</li> <li>• Conflicts and security concerns</li> </ul>	<ul style="list-style-type: none"> <li>• Social support/ Remittance</li> <li>• Nutritional intervention in some sites.</li> <li>• Labour availability</li> </ul>
<b>Mogadishu IDPs</b>	<ul style="list-style-type: none"> <li>• High morbidity (29.6%) in Mogadishu IDPs.</li> <li>• Continued eviction of IDPs from public and private land building.</li> <li>• Low Immunization Coverage(Vitamin A, and Measles vaccination &lt; 40 %)</li> <li>• Arrival new IDPs.</li> <li>• Limited labor opportunity</li> <li>• Seasonal diseases like AWD</li> <li>• Decreased interventions</li> </ul>	<ul style="list-style-type: none"> <li>• Social support.</li> <li>• Nutritional intervention sites (limited)</li> </ul>

## Nutrition Situation Current and Projected

### The nutrition situation:

Both Shabelle Agro-pastoral and Shabelle Riverine livelihoods has sustained **Serious**.

Mogadishu IDP deteriorated from Serious to critical

### Projection for next 3 months :

Both Shabelle Riverine and Shabelle Agro pastoral are likely deteriorate to **Critical**.

Mogadishu IDP is likely to sustain **critical**
